Projects

Hospital Management System | GitHub

Jul 2026

- Developed a full-stack web application for hospital management using Java, Spring Boot, MongoDB, HTML, CSS, and JavaScript, building an integrated platform for core hospital operations and workflows.
- Built and integrated RESTful APIs connecting patient registration, doctor management, appointment scheduling, prescription management, and receptionist administration into structured backend modules.
- Optimized application performance by applying Priority Queue, Merge Sort, Binary Search, and Insertion Sort algorithms, and tested and debugged modules to ensure reliable data processing.
- Tech:** HTML, CSS, JavaScript, Java, Spring Boot, MongoDB, REST APIs, Data Structures & Algorithms

Quote Bot | GitHub

Apr 2026

- Built an interactive Quote Bot web application with dynamic REST API integration, enabling users to retrieve and display a wide variety of quotes through a simple, engaging interface.
- Integrated real-time quote fetching into a responsive frontend, parsing API responses and dynamically updating displayed content based on user interactions.
- Tested and debugged application functionality while optimizing user experience through clean layouts, responsive design, and efficient JavaScript-based event handling.
- Tech:** HTML, CSS, JavaScript, REST API, API Integration, Responsive Web Design

Webpage For Shop | GitHub

May 2025

- Built a responsive business website for Samridhi Enterprises, structuring layouts to showcase company information, products, services, and contact details.
- Customized the website interface using HTML, CSS, and JavaScript with modern styling, animations, responsive navigation, and visually organized sections for an engaging user experience.
- Tested and debugged the website across screen sizes, enhancing usability through dynamic JavaScript interactions, mobile-friendly layouts, and responsive components.
- Tech:** HTML, CSS, JavaScript, Responsive Design, JavaScript Interactions, Web Development

Training

Mastering Data Structures using Java – Lovely Professional University

Aug 2026

- Achieved Grade: A (Good)

Data Structures and Algorithms – Lovely Professional University

Jan 2025

- Achieved Grade: A (Good)

Certifications

Google Cloud Fundamentals: Core Infrastructure – *Google Cloud* | [Link](#)

Jul 2026

Database Management System – *Infosys Springboard* | [Link](#)

Jul 2025

Generative AI: Introduction and Applications – *IBM* | [Link](#)

Jun 2026

Technical Skills

Languages: JavaScript, HTML, CSS, Java, Python, C++, SQL

Frameworks: React, Next.js, NodeJS

Domain Skills: Web Application Development, REST API Development, API Integration, Backend Development, Responsive Web Design, Database Management, Testing & Debugging, DSA

Databases/Platforms: MySQL, PostgreSQL, Windows 10/11

Soft Skills: Problem-Solving, Adaptability, Teamwork, Time Management, Leadership

Education

Lovely Professional University Punjab

B.Tech in Computer Science (Fullstack Specialization)

Aug 2024 – Ongoing
Phagwara, India

DAV Public School

Intermediate

Mar 2023
Muzaffarpur, India

DAV Public School

Matriculation

Mar 2021
Muzaffarpur, India
